8-WHEEL FLEXIBLE VACUUM HEAD

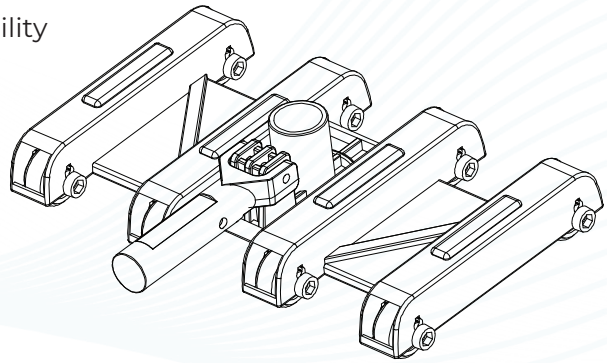

Maximum Contact. Smooth Control. Efficient Cleaning.

The 8-Wheel Flexible Vacuum Head, manufactured by Splash Egypt, is designed for efficient manual cleaning of both concrete and liner swimming pools. Its flexible weighted body adapts to pool-floor contours while maintaining consistent surface contact for effective suction. The 8-wheel glide system provides smooth movement and stability, while the UV-resistant polyethylene construction is designed for reliable use in swimming pool environments.

KEY FEATURES

- Flexible body adapts to curves and uneven pool surfaces
- 8-wheel system for smooth movement and improved maneuverability
- Integrated weight system for consistent floor contact
- Wide 35 cm cleaning coverage
- UV-resistant construction
- Suitable for concrete and liner pools
- Liner-safe design
- Balanced 2.5 kg operating weight
- Standard 1.5" / 38 mm vacuum hose connection
- Designed for manual pool cleaning
- Stainless-steel wheel fixing screws

TECHNICAL SPECIFICATIONS

Specification	Data
Product Type	8-Wheel Flex Vacuum Head
Type	Manual Flexible Vacuum Head
Body Material	Flexible Polyethylene
Material Property	UV Resistant
Number of Wheels	8
Wheel Fixing Screws	SS 304
Width	35 cm
Total Weight	2.5 kg
Pool Compatibility	Concrete & Liner Pools
Hose Connection	1.5" / 38 mm
Flexible Body	Yes
Integrated Weight System	Yes
Side Brushes	Available with or without Side Brushes
