VACUUM SPIRAL HOSE

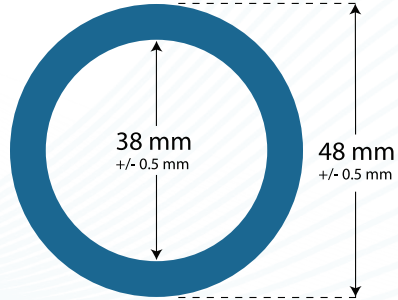

Flexible. Durable. Built for Professional Pool Cleaning.

The Vacuum Spiral Hose, manufactured by Splash Egypt, is designed for swimming pool cleaning and water-handling applications, combining flexibility, pressure resistance, and reliable performance. Its spiral construction helps resist kinking, crushing, and collapsing under vacuum, while the floating hose design provides easy handling during pool maintenance. The hose is resistant to UV exposure, chlorinated water, abrasion, and demanding outdoor conditions.

KEY FEATURES

- Spiral construction for improved kink and collapse resistance
- Floating hose design
- Resistant to chlorinated water and UV exposure
- Flexible and pressure-resistant
- Abrasion and tear resistant
- 360° swivel cuff helps prevent hose twisting
- Fixed cuff at the opposite end
- Suitable for pool vacuum cleaning
- Suitable for connection to sand or cartridge filtration systems
- Suitable for professional and residential pool maintenance

TECHNICAL SPECIFICATIONS

Specification	Data
Product Type	Vacuum Spiral Hose
Inner Diameter	38 mm ± 0.5 mm
Outer Diameter	47.2 mm / 48 mm ± 0.5 mm
Main Material	PE-based construction
Material Formula	PE + EVA / additives
Hose Structure	Spiral
No. of Layers	2 Layers
Buoyancy	Floating / Neutral Buoyancy
End 1	360° Swivel Cuff
End 2	Fixed Cuff
Standard Colors	Light Blue / Black
Standard Lengths	3 / 5 / 7 / 10 / 12 / 15 / 20 / 25 / 30 m
Custom Length	Available
Custom Colors	Available for special orders
Packaging	Plastic Vacuum Pack / Carton
